Beware of Charity Scams

Protect Your Hard-Earned Money this Holiday Season

1

Verify Before You Give

Always donate directly through official organization websites or established local charities rather than clicking on links in emails or donating over the phone.

2

Be Cautious of Pressure Tactics

Legitimate non-profits will welcome your donation at any time and won't pressure you to give immediately via gift cards, wire transfers, or cryptocurrency.

3

Check Charity Registries

Use resources like Charity Navigator or the Better Busines Bureau's Wise Giving Alliance to confirm an organization's credentials before donating.

If you suspect suspicious activity or need assistance call 773.384.2030. Our team is here to support you.
